The ambiance of 1920s Lakewood is faithfully captured in this regal Tudor home, prominently positioned at the gateway of Vintage Place. Architectural features such as multiple overlapping gables, patterned brickwork, shed roof dormer, half-timbering and decorative verge board trim bestow an authentic feel. An exterior finish of Old World brick and stone further reinforces its enduring charm.

Period inspiration is also reflected on the interior through details like vintage-style lighting, hardware, and bath fixtures. All the latest amenities and a well-designed floor plan make this home as easy living as it is spectacular. French doors open onto a backyard that overlooks a nearby pond and trees. Above the garage, a bonus room with bath serves as an ideal guesthouse or workspace. As with all Vintage Place homes, custom landscaping is included to provide the perfect setting.
